**What excites you most about your research?**
Learning is one of my favorite things to do, so every research project I have been involved with has been something I want to learn more about.

**Describe a stumbling block during your research.**
Always finding something new to add to the research. It was hard to stop. I eventually just had to submit.

**Was there a biggest “Oops!” moment in your research?**
The time I showed up in a loud shirt & shorts to tour a 19th cent. theatre in San Juan, only to learn that they didn’t offer tours & I was definitely inconveniencing & irritating the office staff.
